• ABOUT

I am a Jr. Developer, fourth semester student of Software Engineering at the University of Caldas, in Manizales. I am always willing to take on new challenges that allow me to learn and grow. I like to work in a team to solve problems.

My main Stack is .NET (C#) and Angular, however I can easily learn a lot of things, technologies, frameworks, etc. So I consider that I can be a great team member.

• EDUCATION

Caldas University
